manassingh910@gmail.com ◇ linkedin.com/Manassingh/ ◇ website (manas-singh.vercel.app)

SKILLS

Technical Skills	MERN,DSA(java),java FullStack,SQL,React-Routers,Typescript
Framework and tools	NodeJS, React, Express, Nextjs, Git, npm, Vite, Webpack, Postman/insomnia
Webservice	JSON, Rest, API

EDUCATION

Master of Computer Application, Amity University   (2023)

Bachelor of Computer Application from GGSIPU with an aggregate of 8.1 CGPA   (2018 - 2021)

EXPERIENCE

Web Developer   April 2024 - Present
Midas

- Technology: MERN, Java Full Stack, Microservices, GraphQL, Docker, AWS, Spring Boot, Jenkins, Firebase.
- Framework: React, Node.js, Express.js, Spring Framework, Redux, Next.js, Flask, Django.
- Developed: Worked on both Front-end and Back-end development, integrating APIs, building responsive UIs with React, and managing backend services using Java, Node.js, and Microservices architecture. Focused on optimizing performance and improving user experience.

Web-developer   Jan 2023 - March 2024
Career guide   *Delhi,New-Delhi*

- Technology:Web-Development.
- Framework:React
- Developed: I worked on user-interactive pages that enhanced the user experience by implementing responsive designs

Web-Devloper(internship)   March 2021 – June 2021
Webloop infotech   *Gurgram, Haryana*

- Technology Used: Bootstrap, PHP, MySQL, HTML5, CSS3.
- Framework: Laravel.
- Tools: Visual Studio, npm, JSON, Postman, REST-API.
- Developed: I worked on a project for the CA firm (KG Somani), focusing on both front-end and back-end development, utilizing Laravel for robust application structure, and integrating REST APIs for seamless data handling.

PROJECTS

(Try it here)ATS and Search – Frontend and Backend Development – Frontend and Backend Development

Employed **Redux** and **Redux Toolkit** for efficient state management, boosting application performance across the ATS.

Integrated **Material-React-Table** to manage complex datasets, enhancing user interface responsiveness.

Streamlined workflows with **Jira** for effective task tracking and agile sprint planning.

Leveraged **Next.js** features such as code splitting and server-side rendering (SSR) to reduce load times and optimize performance.

[(Try it here)](#)Portfolio-website. Built a web application utilizing the **React.js** library along with various web development technologies, including **MDB (Material Design for Bootstrap)**. Employed **Ant Design**, **TypeScript**, **SMTP.js**, and **Material-UI (MUI)** to enhance functionality and user experience.

[(Try it here)](#)KGSOMANI/Gyanshetra (EDUCATION) In this project we use laravel framework and we use PHP ,HTML,Bootstrap,CSS,Javascript,MySQL,and for handling the data we use Hadoop

ACHIEVEMENTS/CERTIFICATIONS

- Am a 5 star java coder on Hacker Rank[Hacker-rank](#) web-developer ([, Web-developer](#))
- did a lot of coding competition on CodeChef,and code force
